TOTAL CHANNEL

SYNCHRONIZE YOUR MEDIA UNIVERSE

Mission Control Module for IPTV Management

Industry-Leading CMS

Mission Control is the most advanced content management system, offering unmatched performance and capabilities in digital signage and IPTV.

Comprehensive Built-In Features

With all the signage features inside Mission Control, you can create a custom user experience for each screen in the system.

Easy Configuration

Simply convert your cable channels into H.264/5 streams, to import as content into the server. Once imported, those streams become content that can be scheduled to play anywhere in the system.

Customizable Channel Lineups

Create, schedule, and change channel lineups on demand.

Design & Configuration Options

Customize your channel lineups/guides to give you a true broadcast feel. Play content in full screen, wrap with additional content, or add your logo as an overlay.

Our Master Control Servers and Maxi Media Players, come with a 3-year hardware warranty, 3-years of software updates, and lifetime 24/7 phone and internet support.
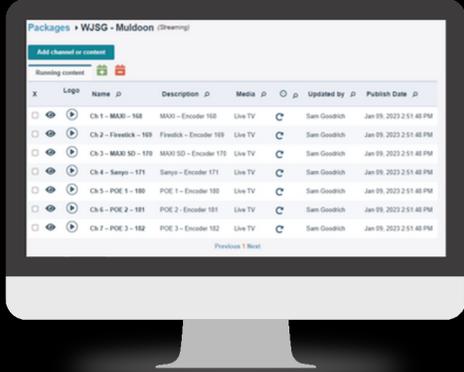

www.total-channel.com

Use the optional Mission Control IPTV Module to create a customizable experience for System on a Chip (SOC) monitors or the Total Channel Maxi SD device.

This solution requires the steams & players be on the same IP Network

Encode streams and hang on the network

Create Channel Packages in Mission Control

Pair with Total Channel's MAXI Signal Decrypter if your SOC device does not provide signal decryption.

Effortless Configuration

Experience seamless control with our Mission Control web-based user portal, where every function of the system is at your fingertips. With simple configuration, just select a master control server, then choose your playout device/s, and you're ready to go! It's that easy.

Step 1
Select a master control server to fit your need. With a multitude of options, the Server can be on premise, or off premise, in the client's cloud, or in the TC cloud.

Step 2
Select your media player(s) from multiple options or integrate seamlessly with a commercial-grade SOC smart TV. All you need is a player license for a more compact solution.

Add the IPTV Module
Turn your system into a dynamic IPTV solution, unlocking a new realm of possibilities for your business.

WE PROVIDE
THE BEST SUPPORT

Our dedicated team ensures seamless support for every aspect of your user's journey. With 24/7/365 phone and internet technical support, the Total Channel team is here to support you every step of the way.
