

TOTAL CHANNEL
SYNCHRONIZE YOUR MEDIA UNIVERSE

TOTAL CHANNEL Product Lineup

Mission Control User Platform

The features below are included with every system.

Anywhere Control, Everywhere Impact

Manage your system effortlessly from any browser. Place screens worldwide and command unlimited players from one central Total Channel Server.

Built-In Templates

Including 60 Drag & Drop apps- Social Media, Weather, Traffic, News & more!

Interactive On-Demand Magic

Scan a QR code, unlock a world of content: videos, forms, coupons, and beyond, all from your mobile.

Built in Ad Tracking

Precision ad tracking shows where, when, and how your content performs—empowering smarter decisions. Use your system to generate revenue.

Interactive Design Tools & Touch

Built in touch control & the tools needed to create your touch content.

Media Players & Video Wall Processors

Versatile solutions from Media players, Smart TV LICs, to Videowall players. Our genius line is a processor, scaler and media players - all in one!

Media Flexibility, Dual Impact

The system supports all standard file formats, without the need for conversion. Standard players also include dual outputs. Deliver unique content to two screens at once.

Unlimited Users

Assign custom access rights effortlessly across departments and displays. Our automated approval system ensures content is always launch-ready.

Custom Reporting at Your Fingertips

From scheduling campaigns to real-time analytics, Total Channel's tools empower you to manage with ease.

Immediate Emergency Response

Activate real-time alerts via API, mobile, or remote access—text, video, and sound, all in one swift solution.

System Architecture:

Your Master Control Server is the heart of the system. Simply log into Mission Control and push content to any TC Payout device (SOC Lic, Room Sign, Media Player, or Genius Video Wall device).

1

Choose Your Server:

- Our Hosted Server
- Our Hardware & Software Server
